Forest school is an outdoor education delivery model in which students visit natural spaces to learn personal, social and technical skills. It has been defined as "an inspirational process that offers children, young people and adults regular opportunities to achieve and develop confidence through hands-on learning in a woodland environment". Forest school is both a pedagogy and a physical ...

Summer learning loss is the loss of academic skills and knowledge over the course of summer holidays. The loss in learning varies across grade level, subject matter, and family income. A common finding across numerous studies is that on average, students score lower on standardized tests at the end of the summer than they do at the beginning of summer (on the same test).
