The Office of Personnel Management (OPM) provides leadership on pay administration for civilian Federal employees. We accomplish this by developing and maintaining Governmentwide regulations and policies on authorities such as basic pay setting, locality pay, special rates, back pay, pay limitations, premium pay, grade and pay retention, severance pay, and recruitment, relocation, and ...

In June 2015, the United States Office of Personnel Management (OPM) announced that it had been the target of a data breach targeting the records of as many as four million people. The final estimate of the number of stolen records is approximately 21.5 million. This includes records of people who had undergone background checks, but who were not necessarily current or former government employees.

Opteron is AMD's x86 former server and workstation processor line, and was the first processor which supported the AMD64 instruction set architecture (known generically as x86-64). It was released on April 22, 2003, with the SledgeHammer core (K8) and was intended to compete in the server and workstation markets, particularly in the same segment as the Intel Xeon processor.
